Call for Papers Announcement

Ecological Economics: Prosperity for a Sustainable Society

Canadian Society for Ecological Economics (CANSEE) 8th Biennial Conference
Simon Fraser University, Vancouver, British Columbia
October 15-17, 2009

This conference will explore how ecological economics can build prosperity for a sustainable society. Conference sessions will focus on the contribution of ecological economics to topics such as:

- Reducing human impact on the global climate
- The energy crisis and food security
- Forest management
- Fisheries and aquaculture
- Water quality and supply issues
- Biodiversity conservation
- First Nations issues
- Sustainability assessment and indicators
- Sustainable tourism
- Business success strategies based on sustainability goals

Call for Proposals:

We are calling for proposals that will explore how an ecological economics approach can help society meet these challenges. We invite submissions from universities, business, government and civil society. These proposals can take various forms, such as single paper presentations, panel discussions or poster sessions.

Proposal Details:

All proposals submitted should contain the following information:

- Title of presentation
- Name, title and affiliation of author
- Contact information (mailing address, phone number and email)
- Abstracts of approximately 250 - 300 words
- Selected key words
- Form of the presentation (e.g., paper presentation, panel discussion or poster)

The deadline for proposal submissions is February 1st 2009. Proposals should be submitted via email to submissions2009@cansee.org or on-line at www.cansee.org/.

All proposals will be reviewed and evaluated by the conference organizing committee. Confirmation of acceptance will be communicated to the author(s) by March 15, 2009.
